#Professional Experience

The Diocese of Camden / Full Stack Web Developer

January 2019 – Current

- ↳ Develop software solutions (web or mobile) to improve overall diocese engagement and employee daily tasks.
- ↳ Built expiracion.camdendiocese.org from conception to final version with programming language specific to projects requirements.
- ↳ Use version control to maintain clarity of program's progress as well as maintain organized module oriented code practices.
- ↳ Ensure best responsiveness practices with both organic software projects and preexisting websites.
- ↳ Build, design and maintain over 20 websites through WordPress.
- ↳ Assist and Teach content creators best WordPress practices with posts and other functionality.

The Martial Way / Web Master

August 2019 - Current: martialwaydojo.com

- ↳ Built their site completely from scratch including color scheme, layout and functionality with WordPress.
- ↳ I implemented a payment system with a combination of plugins and Stripe.
- ↳ I manage all of their social media: including Facebook, Instagram and editing and designing YouTube videos.
- ↳ I manage all of their entire email marketing campaigns using mailchimp.
- ↳ Design marketing and promotional materials utilizing Adobe Creative Suite.

CCL Label, Inc / Pre-Press, Software Developer

October 2015 – January 2019

- ↳ I prepped art files for production of labels.
 - ↳ I prioritized label/printing tasks depending on scheduled projects and their deadlines.
 - ↳ I built customized web applications for different departments to increase productivity and task efficiencies.
-

#Education

The Art Institute of Pittsburgh / Bachelor of Science in Web Design & Digital Media

August 2015 – May 2019: Pittsburgh, PA
